16.12%

Overall Findings 📊

- Overall Attrition Rate: **16.12%**
- Research & Development has the highest number of employee exits.
- Employees aged **26–35** experience the highest attrition.
- Single employees leave more frequently than married employees.
- Employees working overtime show higher attrition.
- Attrition is highest during the first **0–2 years** at the company.
- Employees with longer promotion gaps are more likely to leave.
- Frequent business travel is associated with higher attrition.

Recommendations 💡

- Strengthen onboarding and mentoring for new employees.
- Review overtime policies to reduce burnout.
- Improve career progression and promotion planning.
- Increase engagement among employees aged 26–35.
- Offer flexible work arrangements where possible.
- Monitor departments with consistently high attrition.
- Enhance work-life balance initiatives.

Expected Business Impact 📈

- Lower recruitment and onboarding costs.
- Improved employee retention.
- Higher workforce productivity.
- Better employee satisfaction.
- Data-driven HR decision-making.
